

#SUP4WATER

GLOBAL WATER CONSORTIUM SUP ADVENTURE

#SUP4WATER

Join the cause

Our team will SUP the Susquehanna River carrying the same water equipment we use in developing countries when we build clean water projects. Our goal is to showcase that this equipment can be transported to remote locations and raise awareness for the impact of clean water. Join us as we raise support for our next three water projects in India and Kenya.

we can make a difference

4218

children die each day in India and Kenya due to unsafe water. That is 126,540 children during our 30 day paddle.

1:1

\$1 raised for each child will allow up to two water projects to be completed in India and one project in Kenya. Each project supports 5 - 60 communities.

JUNE 20 - JULY 20 2018

SUSQUEHANNA RIVER

START: OSTEGO LAKE (COOPERSTOWN, NY)
END: CHESAPEAKE BAY (HARVE DE GRACE, MD)

444 MILES
